I've just downloaded this game as of yesterday and already I'm addicted. I can't even say why! There's just simplicity in it like anything else! Most games like this you have to wait for the energy to do your bidding, but this game allows you to clean, explore, and fight with no penalties! It's just tap tap done! You also don't have to pay to play. No need to pay for additional diamonds. There are always other ways to get them besides your money. No ads either! I've seen a couple of reviews mention too many ads, but developers must have fixed that over the past year or so because I haven't had one ad yet. I love the different stories you can do, which backgrounds that you can uncover, and the side of my interior designer appeal so I can spend the coins on something! I love this game!!!! I wish more games were as easy to use as this one instead of your general developers that just want your money and don't care to make the user experience enjoyable unless it's to manipulate you to buy their purchases in the app. 10/10!!!!!! But... I've deleted it once already I went back to try again to see if it improved. In some ways I did but unfortunately what I really wanted to change never did. If you do not put money in this game you will end up being blocked in some room without the necessary items to get out. I've been trapped in one room and fulfilling the required items, just to finish all but all of them disappear as I just didn't do it. I came back hoping it would change but no... I still need a lot more than you lead to believe. I'm going to quit cuz I didn't have some cash on it but I have to delete it again. I can't afford this too bad, and I really like it. Hello! We regret to hear that our adventure game may leave such an impression on you @ there are tools in the game, such as daily bonus, free breasts, fairy tales and beauty level bonuses, which can allow you to play for free! you enjoyed this game tremendously but hit the point where I Progress without purchasing resources. Yes, I understand there are fairies and when you finish the game or higher level you get the items as well as check in daily. But that's not enough to be able to get anywhere in the game anymore aside from maybe making one or two big items in a boiler and then still not quite creating the object needed to advance the game. This forces me to wait more and it becomes no fun when you have to wait using fairy etc every thirty minutes every long day. I want to be able to play the game, not make it a burden. The other problem with this is not having enough things to clean the rooms anymore. There may be a few rooms if you are lucky and then hit an obstacle as you barely skimmed by with resources and then there is nothing in the room that i have applied to really get anywhere. I love this game and play it religiously but not I'm about to delete the app and it makes me sad. The game will be fun with it if you provide less resources or just give us more diamonds.
